

NHSMUN2022 - New York

What does MUN mean?

The MUN is an educational simulation of the United Nations system in which we students learn about diplomacy and international relations, where we work as delegates of a country, managing to solve a problem with other delegates from all over the world.

There are as many commissions as there are at the ONU. 27.

My personal experience

Personally, it has helped me to be more confident when I speak in public and to have a broad knowledge of the political situation in different countries.

It also gave me the opportunity to talk to other students who didn't speak the same language, thus helping me to develop a better English to understand others and also to make friends all over the world.

I did the project with the wsc association, with a preparation course of 12 lessons of two hours each on Saturdays and Sundays and a 10-day journey in New York, 4 days of commissions and the rest of them visiting the city.

I was a delegate of the Republic of Cyprus in the UN-HABITAT committee, whose job is to promote a socially and environmentally sustainable urbanization and guarantee everyone the right to have a home.
